Minimum Admission requirements. Prior to entering the program and taking CYAF 451 and CYAF 297j, students are required to receive passing scores in the PreProfessional Skills Test, Computer Based Academic Skills Assessment (CBT), or Content Mastery Examination for Educators (CMEE). Students admitted into the FCS Education program and must have a cumulative 2.5 GPA with a minimum of 42 earned hours, no grade lower than a C and 2.5 cum GPA in TEAC 331 (or approved substitution) and EDPS 251, and earned credit in approved speech class. (See application for admission to Secondary Education programs in the Student Advising Center.)

Student Teaching. All students who are candidates for an appropriately endorsed NE Teacher's Certificate are required to student teach. CYAF 497j Student Teaching is a full-day experience on a semester basis. Students must apply for student teaching to the Director of Field Experiences in 104 Henzlik Hall. Admission to student teaching requires the following:

- Admission to the FCS Education Program
- A minimum cumulative GPA of 2.5
- A minimum 2.5 GPA in pre-professional and professional education courses with no grade lower than a C in pre-professional courses and no grade below a C+ in professional education courses
- A minimum 2.5 GPA in the endorsement area with no grade below a C
- All pre-professional and professional classes as well as endorsement requirements have been completed.
- No more than 6 hours of general education or elective classes remain to be completed after the student teaching experience
- Completion of a criminal history check that will be conducted by an independent party.

Felony or Misdemeanor Convictions. The NE Department of Education policy requires that a person with a felony or misdemeanor conviction involving abuse, neglect, or sexual misconduct shall not be allowed to participate in pre student teaching laboratory or classroom experiences or student teacher without approval by the Board of Education.

Review by faculty. Every student will be reviewed by the faculty at the end of each semester. Basic skills test scores, GPA, communication skills, and personal-social adjustment will be considered in this review. Students will need faculty recommendations in order to enter the student teaching semester.

Moral Character and Safety. Teaching requires candidates to be individuals of integrity. Prospective teachers must be able to demonstrate they have strong moral character and can make mature decisions. Individuals must show a high degree of moral character and must act responsibly, representing our College and University. Should the College discover behavior, which in its reasonable judgment, establishes on the part of the candidate a lack of integrity, questionable moral/ethical character, or otherwise indicates a potential of risk to young persons and others in the educational community, the FCS Department reserves the right to deny entry to or dismiss anyone from the program leading to certification. These kinds of behaviors shall be adequate foundation to deny any candidate or potential candidate from participation in any practicum, student teaching or other field experience.

Personal-Social Adjustment. Where the faculty in FCS Education has reason to feel there is instability in the student's personal-social behavior, the student may be asked to conference with a counselor to determine the degree to which the student can be expected to adjust to the school and classroom environment.

Extension. Students interested in Extension are encouraged to add FCS 497D Practicum in FCS and complete an internship experience in Cooperative Extension.

For advising purposes. While every effort has been made to accurately list the courses, the UNL Undergraduate Bulletin is the student's contract with the University. Students are responsible for following the appropriate bulletin
