PROFESSIONAL EXPERIENCE

- 1991-** **Senior Lecturer and Staff Psychologist, Department of Special Education and Communication Disorders, University of Nebraska-Lincoln** (Speech/Language and Hearing Clinic, Barkley Memorial Center, Lincoln): Psychological, educational, and developmental evaluation of clients, preschool through adult, with a variety of learning disorders, developmental disorders, and traumatic brain injury.
- 1991-** **Private Practice:** by referral at various sites in the Lincoln and Omaha area, specializing in evaluation, programming and/or treatment of children and adolescents with problems of learning and behavior, including:
- the Center for Childhood Deafness at Boys Town National Research Hospital in Omaha

- a private fee-for-service clinic in Lincoln
- the START Program, a NDHHS Welfare-to-Work program
- a child/adolescent inpatient psychiatric facility in rural Nebraska

- 1990-91** **Staff Psychologist, Boys Town National Research Hospital**
 Psychology Department/St. Joseph's Center for Abused Handicapped Children: evaluation and intervention with problems of learning, behavior, and development, preschool through adolescence; evaluation of abuse in children with communication handicaps.
- 1988-89** **Post-Doctoral Fellow, Meyer Children's Rehabilitation Institute, University of Nebraska-Medical Center:** assessment of problems of learning, behavior, and development, infancy through adolescence, including assessment of children with severe/profound and medical handicaps, and children with low-incidence handicaps and genetic anomalies; behavioral assessment, consultation, and parent training; and evaluation and treatment of behavioral pediatric problems. Psychological consultation to the Nebraska Department of Social Services' Medically Handicapped Children's Program Cerebral Palsy and Midline Defects clinics. Psychological consultation to the University of Nebraska Medical Center's Cranio-Facial Anomalies Clinic, Liver Transplant Team, and Department of Pediatrics inpatient and outpatient clinics.
- 1988-90** **School Psychologist, Omaha Public Schools:** psychoeducational and behavioral assessment of children and adolescents in public school settings; educational and behavioral consultation with teachers, administrators, and parents of public school children, including through the Orthopedically Handicapped program, the Comprehensive Center for Occupational Education (an alternative secondary education program), and the J.P. Lord Maximum Opportunity for Development program (for profoundly/multihandicapped students).
