

For years, people have said that baseball is America's favorite sport. The game of baseball is over fifty years old. Most people know there are nine players on a team. There is a pitcher, a catcher, four infielders, and three outfielders. The game of baseball is played in a large field shaped like a diamond. Each corner or point on the diamond is called base. The object of the game is to get at least one player on base. When another player hits the ball without it being caught, the player on base goes to the next base. When the player touches all four bases, a run is scored. The team who makes the most runs wins the game.
