

QLI
Internship Site Visits
Jeff Snell, Ph.D. (402) 573-2162

Interns are currently able to schedule on-campus site visits to QLI, with several COVID-related precautions in place. One such precaution is the limitation of no more than two visitors on any given date. In order to simplify scheduling, our preference is to arrange visits on a Friday, and we will typically schedule such visits from 10am to 2pm, with lunch provided on-site. Should any conditions or plans change, scheduled intern visitors will be notified of such changes prior to their scheduled visit. Visits will include interaction with QLI psychology staff and a review of their duties and responsibilities within the clinical team. A limited tour of the facilities will also be provided. Keeping with our philosophy to provide a real-life, functional and applied model of experience and learning, we are interested in providing experiences that are personally and professionally valuable for you!

We are also open to experiences that an intern specifically requests if we can provide it. We're only limited by the creativity that you and we have. In order to schedule an on-site visit, please contact Jeff at jeff.snell@qliomaha.com. If you do have specific interests associated with your visit, please let us know at the time of your visit request so that we can assess the feasibility of providing such experience within the precautions under which such visits must take place. Please email or call at least one week prior to your requested date of visitation.
