Researchers at the University of Nebraska-Lincoln are looking for children who read below grade level to participate in a research study.

WHAT IS THE PURPOSE? To understand brain blood flow patterns in children who have difficulty reading. The study uses ultrasound to measure the velocity of blood flow in your child’s brain.

WHO IS ELIGIBLE? Children between the ages of 6 and 9 who read below grade level.

WHAT IS REQUIRED? A single testing session lasting between 60 and 90 minutes.

WHERE? Testing will occur at Barkley Memorial Center or Chase Hall on UNL’s East Campus.

If you have any questions or are interested in participating, please contact:

Kristina Zvolanek at (402) 570-2998 or kristinazvolanek@gmail.com
Benjamin Hage at (402) 309-6929 or benjamin.hage@huskers.unl.edu
Dr. Greg Bashford at (402) 472-1745 or gbashford2@unl.edu
