And friends:

7/14 Opening the Door to ABAR Work in Your School Community

In this session, we will walk through our personal experience opening up a dialog within our school community about the importance of ABAR work. By walking through our conversations with colleagues and leadership, sharing the planning process, and describing our first year in action, we hope to offer a blueprint for other educators to make ABAR work a reality in their schools.

7/27 But I Have to Teach the Standards: Integrating ABAR Work into the Classroom

In this session, we describe our thought process as we create standards-based lessons across the curriculum that expose learners to diverse representations and encourage them to engage with the world around them. Attendees will see visual examples of actual lessons and activities we have done in our classrooms!

7/29 Don't Just Talk About It, Do It

Time to practice! In this interactive session, educators will be given actual lessons to transform. With guidance from the facilitators, you will have the opportunity to work with other educators to look at current curriculum critically in order to infuse ABAR principles into lessons.
